

Works Notice:

Price Street, Nambour

Night construction work and road closure near rail bridge

Queensland Rail will begin site work in November to prepare both sides of the rail bridge over Price Street, Nambour for the installation of bridge strike protection beams.

Night construction work is scheduled to occur from Sunday 8 November until Wednesday 2 December 2015, weather and construction conditions permitting.

Work hours will be from 6pm on Sundays to 4am on Fridays.

This night work requires the temporary closure of Price Street to safely commence construction of the support columns on both sides of the rail bridge. Pedestrian access will be maintained at all times.

Traffic management controls and signage will be in place to direct road users and pedestrians around the temporary road closure. Refer map overleaf.

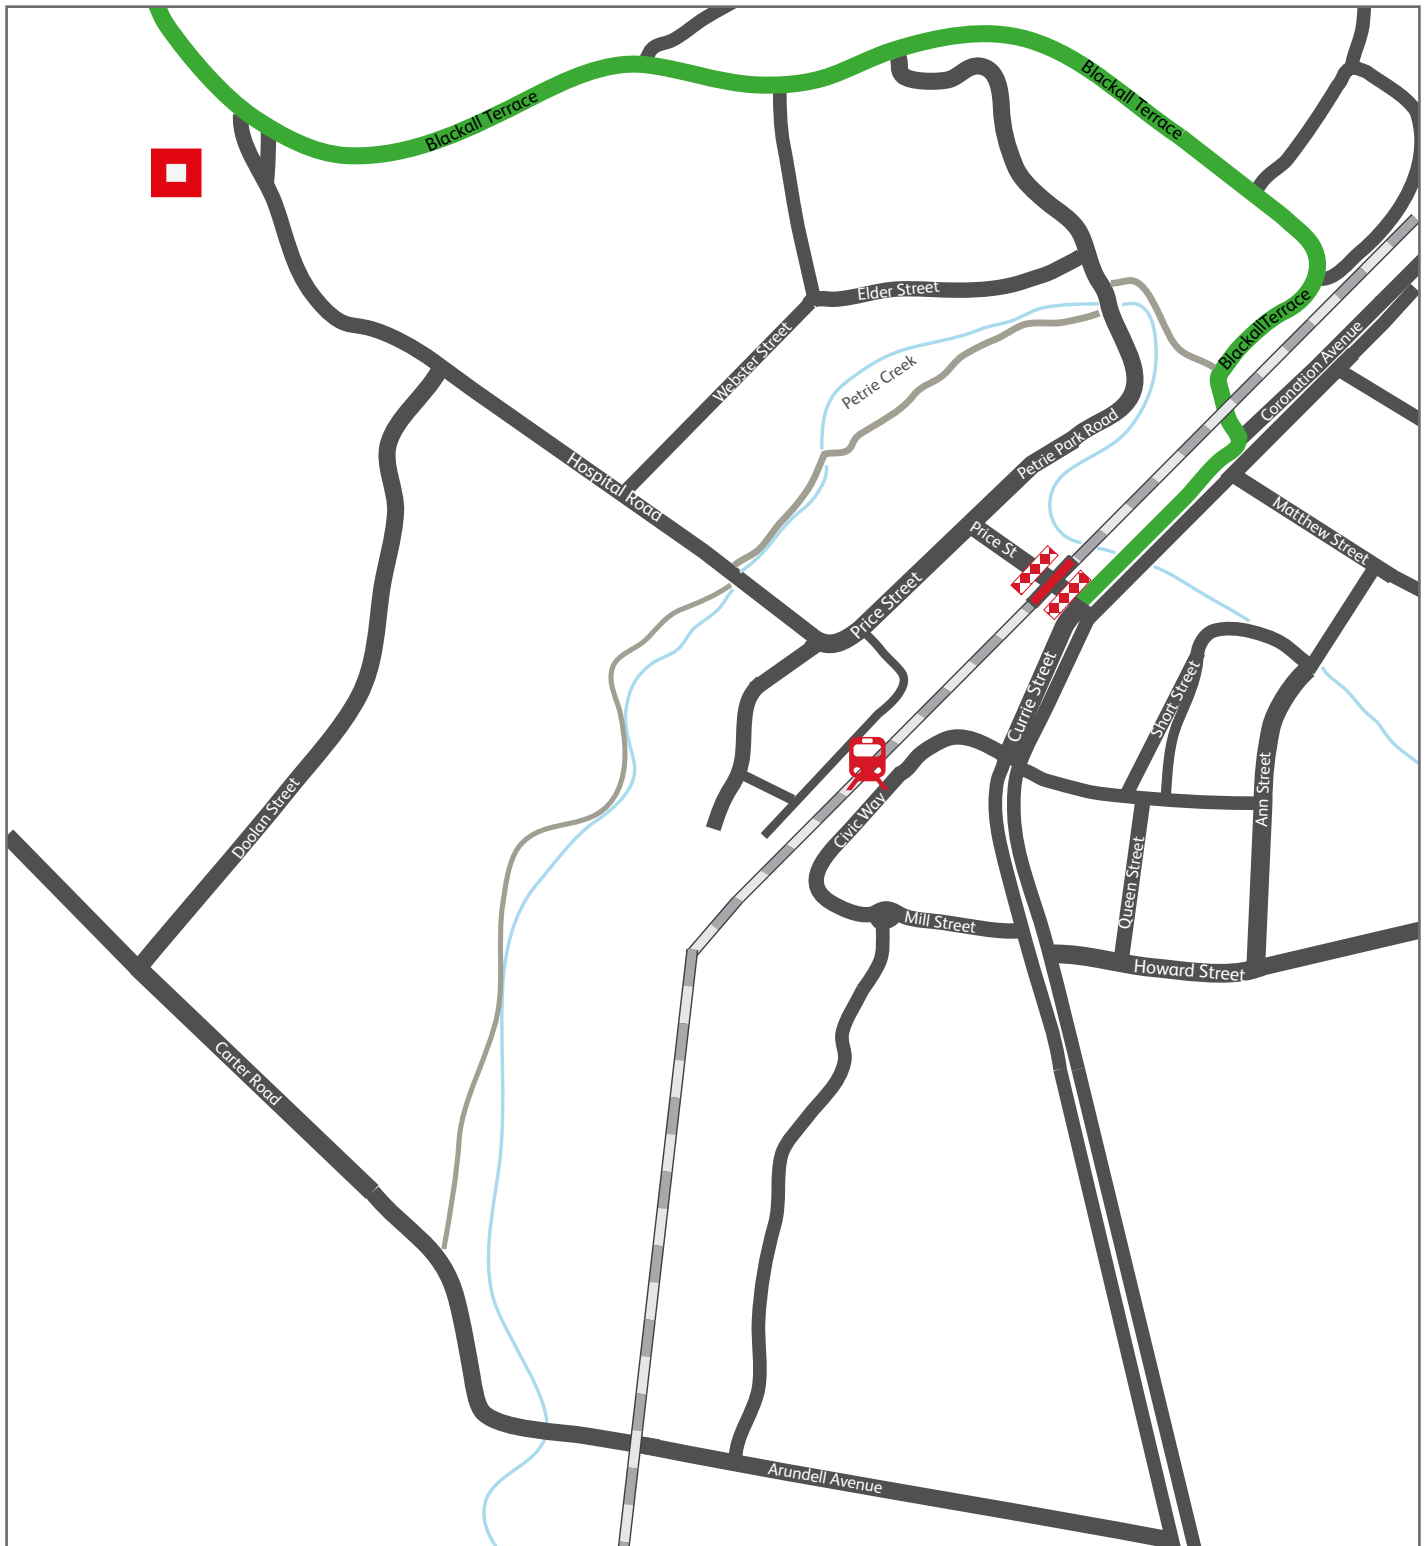

Residents may notice an increase in noise and vehicle movement during this time. Queensland Rail will endeavour to minimise noise disruption where possible and apologises for any inconvenience to surrounding neighbours during the works.

Final installation of the protection beams is scheduled for February 2016.

This installation is part of a state-wide Bridge Strike Protection program to prevent 'over-height' vehicles striking existing rail bridges, improving transport safety.
