

## Works Notice

# Muriel Avenue, Moorooka

Queensland Rail is continuing to prepare the western approach to the rail bridge over Muriel Avenue, Moorooka for the installation of a bridge strike protection beam.

Night construction work will continue from 10 June until 7 August 2016, weather and construction conditions permitting. Work hours will be between 7 pm and 6 am Sunday to Thursday nights.

Some partial road closures of Muriel Avenue will be required while works are completed, with traffic management in place to direct road users.

Residents may notice an increase in vehicle movement and noise from machinery and construction activities during this time. Queensland Rail will endeavour to minimise noise disruption where possible and apologises for any inconvenience during the works.

Final installation of the protection beam is scheduled in late July 2016, weather permitting. Advance notification will be provided.

This installation is part of a state-wide Bridge Strike Protection program to prevent 'over-height' vehicles striking existing rail bridges, improving transport safety.
