

SOCIAL SKILLS GROUPS **Based on Social and Emotional Learning**

“Highway Heroes - Smart Life Skills 4 Kids”

This program was developed by an OT and a speech pathologist with over 20 years experience running social skills groups. The program is based on social and emotional learning which covers: recognizing and managing emotions, developing caring and concern for others, establishing positive relationships, making responsible decisions and handling challenging situations effectively.

We would love to tailor a group to help your child with social skills, this may be at one of our clinics, or within your child's school or pre-school! Our social skills groups are small (4 - 6 kids) and are led by one or two speech pathologists depending on requirements. We provide a fun and supportive environment as we teach children how to interact appropriately and confidently with others of a similar age. A group setting is a wonderful environment for a child to learn essential social skills, as we can conduct group exercises and role-playing.

* **REBATES AVAILABLE THROUGH NDIS AND FAHCSIA**

* **PAYMENT PLANS ARE AVAILABLE**
