- Access to staff training and “lunch and learns”
- Access to after hours services
- No freight fees on compounded products delivered within the Adelaide metropolitan area

About HPS Compounding

HPS Compounding works collaboratively with veterinarians and veterinary teams to deliver tailored and effective medication solutions to a vast range of animal patients. In support of optimal patient therapy, HPS Pharmacies invests in dedicated veterinary specialists who focus on delivering the highest quality services and products, supported by robust quality systems and procedures.

Based in Ashford, South Australia, HPS Pharmacies delivers a local and responsive service, providing clients with access to the following services:

Commercial Products

HPS Pharmacies is Australia’s leading pharmacy service provider, and one of the largest purchasers of pharmaceutical products nationally. Our long-term partnerships with preferred suppliers deliver significant value for clients, who in turn benefit from our national purchasing power with pharmacy wholesalers.

Additionally, HPS’ clients have the opportunity to purchase part packs, minimising wastage and reducing inventory costs.

Tailored Compounding

HPS Compounding are specialists in the delivery of customised and tailored compounded medicines to improve therapeutical success for individual patient care.

Working collaboratively with veterinary teams, specialist compounding pharmacists can tailor compounded medication and delivery systems to optimise patient care.

Cytotoxic Compounding

HPS Compounding has significant experience in preparing cytotoxic veterinary medicines, providing the highest quality of life for animals diagnosed with cancer.

With a unique understanding of the sensitivities involved with treating cancer patients; HPS Compounding offer a tailored and responsive approach, garnered and developed through knowledge obtained over 30 years’ experience in oncology practice.

Dedicated Compounding Sales Manager

With over 20 years’ experience working within the veterinary industry, Angie Talbot provides specialist advice and daily support to veterinary teams. In support of optimal patient outcomes, Angie regularly meets with clients to deliver new and innovative products and delivery systems, in addition to providing specialist veterinary staff training, including “lunch and learns”.
