

## Home visiting information

Your doctor has arranged for you to be attended to in your home by our home visiting service.

**This service is only for ill and infirm patients, and for many patients this will only be necessary for a short time.**

You must remain at home on the day of your scheduled visit. If your circumstances change and you know you will not be home on the appointed day, please phone us on 9287 7700 so we can re-schedule your visit.

Unfortunately, we cannot give you an appointment time due to the urgent nature of some doctor requests and hospital visits which take priority.

When your doctor arranges your home visit, we will know if you are fasting or have any special requirements prior to your tests. In these circumstances our staff will attempt to visit you as early in the day as possible.
