- Victoria Park - Dulwich
- Stirling Hospital

Notes:

Patient Information Handout

CT Scan

A computed tomography (CT) scanner is a special x-ray machine which uses computer techniques to produce images of your body. To obtain these images, the x-ray tube moves around your body while you lie flat on a table.

You will receive a very small dose of x-ray radiation. The benefits of detecting disease are believed to outweigh the potential risks of receiving such a small dose.

Please advise our radiographer if you are / think you may be pregnant.

BOOKING YOUR APPOINTMENT

Please call our friendly staff on 8402 0200. You may request a site convenient to you; otherwise the booking staff can suggest your nearest location.

Please advise our booking staff if you are diabetic.

WHAT TO BRING

- Radiology referral
- Medicare card
- Healthcare/Concession card (if applicable)
- Previous relevant imaging
- Other relevant documents

PREPARATION FOR YOUR STUDY

Abdominal / pelvis

Do not eat/drink any fluid that is not considered clear for four hours prior to your appointment.

Coronary Angio/Arteries

Do not drink any coffee/caffeinated drinks, smoke or eat chocolate for 24 hours prior to your appointment. Clear fluids are okay. You must also bring a list of your medications.
